

FOR IMMEDIATE RELEASE

HIM Solutions Provider Meta Health Technology Boosts Canadian Sales Coverage

Meta Partners with Canada Health Care Software Provider Consulting Cadre

NEW YORK, New York and TORONTO, Canada — Meta Health Technology, one of the United States' leading health information management software providers, and Consulting Cadre International Inc., one of Canada's leading healthcare solution providers, jointly announced that CCI will market Meta's suite of Health Information Management (HIM) Solutions in Canada.

Enhances Meta's Product Offering for the Canadian Market

Meta's CHARMS 2000 suite of health information management software automates critical HIM functions, including abstracting and coding, physician query, chart analysis and completion, release of information, chart tracking, electronic signature, document management, electronic medical record; reporting and compliance, and department management. The company's abstracting software enables hospitals to submit DAD and NACRS data to the Canadian Institute of Health Information (CIHI.)

“We are very pleased to be launching this partnership with Consulting Cadre. Meta has served the Canadian market for over 10 years, and this represents a great opportunity for us to expand our presence,” said Eli Nahmias, Meta's President and CEO. “With CCI, we now have a local company that can implement and train Canadian clients. They bring many years of consulting experience in the health care industry, which makes them an excellent partner for Meta.”

“This strategic alliance brings together two of the leading and most successful health information management software developers from two of the largest healthcare markets in North America,” said Saverio Rinaldi, President, Consulting Cadre International. “Our solutions are complementary and they are best-in-class in their respective segments. This alliance has filled out CCI's solution set, providing enhanced total solutions for our customers.”
