

**FOR IMMEDIATE RELEASE**

## **Meta Health Technology Announces New Internet-based Tools**

*New PowerSign™ and WebDisclose™ products Expedite  
HIM Workflow*

New York, NY - Meta Health Technology announced two new Internet-based products at the AHIMA Conference in Minneapolis, MN, October, 18 through 24. The two new solutions, *PowerSign* and *WebDisclose*, expedite the workflow of HIM and other healthcare professionals.

PowerSign is a secure, Internet-based electronic signature tool that allows physicians to sign their charts anywhere they have access to the web. The system also updates any deficiencies for completed work. WebDisclose is an enterprise-wide, web-based solution for managing health information disclosure tracking and reporting. Whether you are a single facility or a health network, WebDisclose provides a secure, HIPAA-compliant solution for reporting and tracking all your disclosures of health information.

“For 25 years, our company's mission has been to provide solutions that help HIM professionals in their daily work life. We are proud to offer these two new products that carry on that tradition. They both expedite the workflow of the HIM department. We try to listen to what our clients say and provide the tools they request. It's a mission we take very seriously,” said Eli Nahmias, President and CEO of Meta Health Technology.

### **About Meta Health Technology**

Meta Health Technology is a full-service provider of software solutions that enhance day-to-day operations in today's Health Information Management department. Meta's specialty is HIM, and its products are designed to meet the specific needs of the HIM department. Headquartered in New York City, the company has served the healthcare industry exclusively for over 25 years. Meta's clients range from small community hospitals to many of the largest and most prestigious medical facilities across the United States and in Canada. The company provides a level of client service that is unmatched in the industry.
